Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the car. There is only one way to cure deatness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the nacous linking of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or interfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by a starrh, which is nothing but an inflamed condition of the mucous surfaces.
